

The Fisker Karma Sunset PHEV hardtop convertible coupe has been named 2009 Production Preview Concept of the Year, part of the North American Concept Vehicle of the Year Awards.

The North American Concept Vehicle of the Year Awards, now in its eighth year, recognizes those vehicles most likely to shape the future of the automobile industry. A jury of more than two dozen automotive journalists selected the Karma Sunset over vehicles from seven other major manufacturers. The Production Preview category is for vehicles based on a model that has already been announced or is planned for production. The Fisker Karma Sunset was unveiled to rave reviews in January at the 2009 North American International Auto Show in Detroit.
